

ONLINE NEW MEMBER ENROLLMENT

Introducing Online Membership Enrollment!

Trying to capture new members with your website? Sharetec has the solution for your credit union. Online Membership Enrollment enables you to provide a quick and easy application process to enroll new members. As an added benefit, your existing members can apply for new products and services with the same easy tool.

- **Enroll new members**
- **Provide loan applications for new members**
- **Allow existing members to open new accounts**

Sharetec's Home Banking puts your members in touch with their accounts allowing members to manage their financial future from the comfort of their living room.

Quick and Easy Enrollment

A potential member only needs a few minutes and some basic information to get the process started. The online process collects all of the vital information necessary to process the application:

- **Eligibility criteria**
- **Applicant/Joint Applicant Information**
- **Type of loan and amount**
- **Account funding information (creating an ACH from another FI)**
- **Payment Method**
- **Select Share Accounts and Other Products (Debit Card, etc)**

You maintain control! The potential member receives an email from the credit union with further instructions. The Credit union staff may request additional information. Once a credit check is completed, you are ready to contact the applicant and complete the transaction.

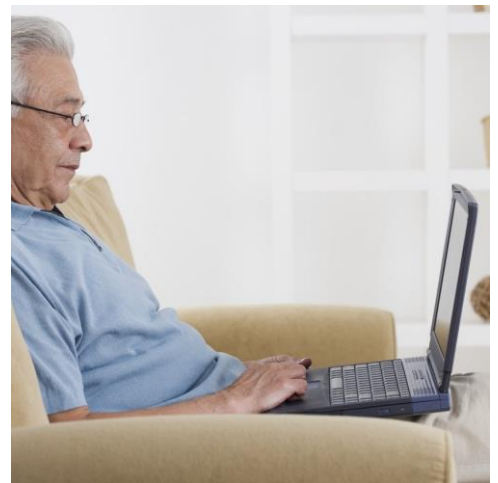

The Benefits:

- Potential members can apply for membership online
- New loans can be approved in minutes
- You have an immediate opportunity to Cross Sell additional products
- You can compete with any financial institution for products and services

***Attract
New Members!!!***

***Retain
Existing
Members!!!***

Today's consumers are looking for financial services that meet their needs. Online New Member Enrollment fills that need.
